PROJECT

1 Scientific Calculator using C

Calculator that gives the output of all the operations like a physical scientific calculator.

2 Web Project : Personal Portfolio

It is a responsive website where anyone can see my personal details and work Even they can contact me for other queries

3 Web Development(Internship)

Made a gaming website where we can choose different games a cheaper prices. It has a news section where anyone can be updated to their related games

4 College Website(Final Year)

Web application for my own college with every functionality like marks evaluation, student data filtration report generation, etc.
